

LAB order pics for animation (video projector):

→ projection the last room in the first room of the LAB gallery space

4 series of 7 pics for the floor and the same number of series for the roof

Group selection with words from the clouds group:

dislocation (Maria word and selection of images choosed)

protes/ prothesis (Nathalie word and selection of images choosed)

specific (Maria word and selection of images choosed)

come closer = kome närmare = bröst (Nathalie word and selection of images choosed)

To choose the couple floor-roof to obtain a image

Keep the series together

How organize the order of the series of 7:

- the word of the series before each playing of the series

- a, b, c, d : alpha order (in loop)-> bröst; dislocation; protes; specific

Choice pair floor-roof

Pictures took by Nathalie in the last room of the LAB gallery space, digital camera, floor views and roof views without seeing through the camera, looking around + body moving on the floor with camera for the roof views.
